

Remarks

Applicant, as per the suggestion of the Examiner, has amended the claims to reflect the allowable subject matter of claim 13. The language of claim 13 has been inserted into claim 1 to set forth that the semiconductor laser device comprises two reflecting means with two reflecting surfaces, the two reflecting surfaces each being tilted at oppositely equal angles (α) to the normal on the exit surface. No new or additional matter has been added to the specification or claims.

Further the additional amended claims have been amended to reflect two reflecting means and two reflecting surfaces as set forth by claim 1, which incorporates the language of claim 13.

The claims contained in the application have now been placed in a condition for allowance.

Respectfully submitted,

Stewart L. Gitler
